SARAWAK SETS THE STAGE FOR GLOBAL CLEAN ENERGY LEADERSHIP AT INTERNATIONAL ENERGY WEEK 2025

3rd March 2025, Monday

KUCHING: The International Energy Week (IEW) Expo and Summit is set to take place from **15 to 17 July 2025**, at the **Borneo Convention Centre Kuching (BCKK)**. This year's theme, ***"From Sarawak to the World: Journey to Clean Energy Leadership"***, highlights Sarawak's commitment to spearheading the global transition towards clean energy.

Deputy Minister for Energy and Environmental Sustainability Sarawak, Dr. Hazland Abang Hipni, stated that the event will showcase cutting-edge advancements in renewable energy technologies, including hydrogen power, solar energy, and carbon capture. He emphasized that IEW 2025 aims to position Sarawak as a global leader in sustainable energy while fostering innovation and international collaborations.

Sarawak Premier Datuk Patinggi Tan Sri Abang Johari Tun Openg is expected to officially launch the event. Aligning with Sarawak's Post-Covid-19 Development Strategy 2030, IEW 2025 will serve as a platform to promote renewable energy initiatives and attract investment opportunities.

The summit is projected to welcome over 6,500 attendees from more than 25 countries, featuring participation from over 400 companies and key industry leaders. It aims to deliver actionable policy recommendations and foster collaborations beyond the event, further solidifying Sarawak's role as a hub for clean energy innovation within the ASEAN region.

The event is being organized by Informa Markets Malaysia in partnership with the Ministry of Energy and Environmental Sustainability Sarawak (MEESTy) and supported by Business Events Sarawak (BESarawak). IEW 2025 serves as a critical milestone and catalyst for future clean energy initiatives. For more information or to register, visit www.iew.my or contact the IEW Secretariat at fikry.janaludin@informa.com.
